Kauai Girl to Join Hospital Unit For War

Miss Mabel Wilcox, daughter of Mr. and Mrs. S. W. Wilcox of Lihue, is to leave for Baltimore the latter part of July to report for service with the Johns Hopkins University hospital unit.

Miss Wilcox has been in charge of the tuberculosis work on Kauai for several years and has rendered very valuable service to the community in many ways. Recently a corps was sent from Johns Hopkins University, but Miss Wilcox was not able to reach Baltimore in time to join it. Another complement is to be sent soon and she will be enrolled.

Kauai is feeling the seriousness of the great war as it sends its representative young people to share in the duties and responsibilities of the nation.

LETTERS ASSERT CHINA MONARCHY CANNOT SUCCEED

Letters received from China by local members of the National party say that any campaigns against republicanism in that country would be beaten. The cable reports show that the sentiment is strongly in favor of a republican government.

"What is the matter with China?" has been a question that is often asked when the situation in the Far East has been discussed. According to a local Chinese military governor in the various provinces have been wielding the whip hand. These governors have power surpassing that of the president.

Unlike the United States, when one governor is transferred to another post he does not leave alone, but takes his troops with him. In this way he builds up a power which is greater than any other in China. This power was responsible for the hold of Gen. Chang Hsun in the recent crisis. Governors in the various provinces control the local situation. When the word is sent out that something must be done, the governors are usually on the job. Soldiers take control of railroads, hotels and public places when any outbreak occurs. With this situation remedied, the local Chinese believe, China will progress.

VITAL STATISTICS

BORN
CAMARA—In Honolulu, July 9, 1917, to Mr. and Mrs. Manuel Camara of 1448 Luso street, a daughter, Thelma.

KANEALII—In Honolulu, July 7, 1917, to Mr. and Mrs. Benjamin K. Kanealii of Kamehameha IV road, a daughter, Mary Poulia.

SOUZA—In Honolulu, July 3, 1917, to Mr. and Mrs. Joseph Souza of Auwaloum road, a daughter, Eva.

WILLIAMS—In Honolulu, July 7, 1917, John Williams, 72 years old, died at his home, 1448 Luso street, after a long illness. Burial at the cemetery.

Like A Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor Says Nuxated Iron is Greatest of All Strength Builders —Often Increases the Strength and Endurance of Delicate, Nervous Folks 200 Per Cent in Two Weeks' Time

NEW YORK, N. Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor and vitality as a young man; in fact a young man he really was notwithstanding his age. The secret he said was taking Nuxated Iron. He had filled his life with it and as a consequence he was healthy at 46 years and nearly all his life he had been a strong, healthy man. I have sold a hundred times over, iron in the greatest of all strength builders. If people would only take this potent medicine and its wonderful concoctions and take simple nuxated iron, I am convinced that the lives of thousands of people might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their disease was nothing more or less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change from living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and all the consequences you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong and well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times a day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were all the while, despite their strength and endurance and entirely free of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old form of iron, iron pills, nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down to his glorious defeat simply for the lack of iron.

NOTE—Nuxated Iron recommended above by Dr. Satter is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents is widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary it is a most potent remedy. In nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Hollister Drug Co., Benson Smith & Co., Chambers Drug Co. and all other druggists.

ADDITIONAL TELEGRAPH NEWS CONGRESS DELAYS ON FOOD BILL WHILE FOOD PIRATES GRAB FORTUNE

(Associated Press by U. S. Naval Communication Service)
WASHINGTON, D. C., July 11.—While the speculators are fattening upon the people and the farmers, the rest of the nation is facing a most serious situation, due to the long drawn out delay in the passage of the necessary legislation that would give the government control of the harpies who are using the present crisis to make money out of the difficulties of the nation.

Such was the gist of a lengthy statement made yesterday to President Wilson by Herbert C. Hoover, food controller, during a call at the White House, in the course of which the whole food situation was gone over by the two men.

Hoover went to the White House shortly after meeting committees composed of prominent churchmen from all over the country and from all denominations, called to frame plans for carrying on the food economy campaign. The committees decided that an energetic campaign for food conservation shall be launched immediately by the churches and through the church publications. The plan is to secure from the head of each family in the congregation a weekly statement of the work that family has done to conserve food during the week just ended. Full details of the plan adopted by the family to cut down the waste and reduce the amount of food consumed unnecessarily, will be contained in these reports, which will be made public. The churches will also keep reports which will be sent to the administration each week, enabling officials to keep in touch with the situation.

To the president Hoover, after reporting the progress made by his campaign, declared that something must be done to force the slowly turning wheels of legislation to revolve faster if possible. He pointed out that the farmers and the consumers of the country are beginning actually to suffer that the food speculators might fatten. These parasites on the body politic, he added, are but taking advantage of the failure of congress to enact a law that will give the government authority to move swiftly and sternly to the repression of the speculators.

Unless some prompt measures are taken," he added, "the farmers of the country are face to face with a slump in the cost of the products they are raising, while the consumers face a still more serious situation. Already there is much under-nourishment in many of the greater centers and we are practically helpless to remedy this condition of affairs until the food legislation which we have asked of congress shall have become law."

Data showing the result of the persistent delay of congress to act in this crisis, has been issued by the committee of information, which is one of the food commissioner's agencies.

President Wilson, though in the past he has made no comment on the situation, manifested yesterday his impatience at the tardiness with which congress is acting.

Senator Gore of Oklahoma, the chairman of the senate committee in charge of the food legislation, has introduced a bill containing all the proposals wanted by the president, but modifying the powers given to the food controller. In the main this measure is reported as having proved acceptable to the president and to Mr. Hoover, and probably will prove satisfactory to both houses. The final vote on the bill probably will be not later than July 21.

EXCURSION STEAMER SUNK; SEVEN DROWNED

(Associated Press by U. S. Naval Communication Service)
ORTONVILLE, Minnesota, July 11.—Seven persons were drowned yesterday when an excursion steamer was sunk by a gale on Great Stone lake.

ITALIAN MISSION SAFE AT FRENCH SEAPORT

(Associated Press by U. S. Naval Communication Service)
WASHINGTON, D. C., July 11.—With the exception of Senor Marconi, inventor of the radio telegraph, who is still in New York on business, all of the members of the Italian mission have returned to Europe, and their safe arrival in a French port was formally announced last night by the state department.

PURCHASING BOARD FOR WAR SUPPLIES PLANNED

(Associated Press by U. S. Naval Communication Service)
WASHINGTON, D. C., July 11.—The council for national defense announced last night plans for the elimination of purchasing committees and the creation of a central body, to be known as "The War Industries Board," which is to handle all purchasing for this government. Three members of this board have been suggested. They are Bernard Baruch, Julius Rosenwald and Frank Scott, but the final decision has not been made as yet.

DECLARES TEUTON GOLD BACKED MANCHU COUP

WASHINGTON, D. C., July 11.—A despatch to the Reuter Telegram company at London from its correspondent in Shanghai carries word that the North China News, an American newspaper, declares that it virtually has been established as a fact that the Manchou uprising at Peking was financed by German agents, acting through Gen. Chang Hsun, whom they had in their pay. If the coup d'etat had been successful and the puppet emperor had remained on the throne where Chang Hsun foisted him, the North China News says that the rupture of diplomatic relations between China and the imperial German government would have been closed and all acts of the republican government distasteful to Germany disavowed and cancelled.

JAPANESE SHOT BY SHUN'S MEN

(Special Cable to Nippon Jiji)
TOKIO, Japan, July 10.—A Japanese subject was wounded today when Gen. Hsun's soldiers fired upon a moving train in the outskirts of Peking. The Japanese is reported to be in a critical condition.

As soon as the fatality became known at the Japanese legation in Peking, Baron G. Hayashi, minister to China, consulted with Gen. Chang and warned the self-styled dictator to repeat the outrage upon the Japanese subjects or other foreigners in the future.

Gen. Chang was warned that any further attempt on the part of the command to block the railroad communications from Peking would only invite Japan to take a hand in the present crisis, which otherwise Japan would not participate in.

TOKIO, Japan, July 10.—An aeroplane, manned by a republican aviator, hovered over Peking yesterday and bombarded the palace from above. The bombs missed their goal and no harm was done to the palace.

General Tuan Chi Ju, the new premier of the re-established republic, today sent a telegram to Hsun Tung, assuring the abdicating emperor that the provisional government will take every precaution to safeguard him. Hsun Tung still remains in the palace at Peking.

NON-EMPLOYMENT MAY BE MENACE IN SWITZERLAND

BASEL, Switzerland.—So inconsistently have the countries at war which border on Switzerland—and some that are not at her door—passed laws forbidding imports of various kinds, that the near future holds every prospect of worklessness and non-employment in a number of Swiss industries.

Employers are raising large sums for funds on which their workmen later can draw if necessity forces them to close down their shops, or what is more likely, sharply curtail their output either for lack of a market or for want of raw material.

The silk manufacturers of Zurich have thus raised a million and a quarter of francs which it is expected will go eventually to workmen now unemployed but who later will either be unemployed, or at work only on part time.

Likewise the silk manufacturers of Basel have already got into touch with the charitable and poor authorities of the city to prepare for the expected time of distress. As yet, fortunately, the reduction work is slight.

The government of Switzerland, also, has not neglected the problem of the future. Recently it increased the "war profit taxation" by one-fifth, the additional money thus raised going into a fund to care for workless men and women.

ECONOMY CUTS BATHING SUITS

NEW YORK, N. Y.—On the crest of the war-time saving spirit comes the 1917 model bathing suit and the economy practiced in buying material makes it almost invisible to the naked eye. It would seem that manufacturers, and the women themselves, are not wasting any material these patriotic times on special sets of scenery when cloth is needed for soldiers' uniforms. The skirts have retreated to the Hindenburg line and the stockings no longer slip down in a shapely bunch around the calves, because they do not reach up to the calves. For the most part they either are socks which give just a touch of neatness to the ankles or there is no hosiery at all; just bathing shoes, the fancy, high-heeled kind intended for beach strolling.

To balance the cutting off of the skirts, which in some cases were given up entirely in the interest of economy, the season's bathing suits have an equal abstinence of cloth or material at the top of upper end, frequently hardly more than a pair of shoulder straps, showing that the dear girls are willing to utilize that which has been discarded in the modern army officer's uniform. In a few cases, the designers of the suits were not well informed on military strategy, which warns against having lines extended too far.

Observing the first effect of the war on bathing suits, the economizing on material to a degree which seems almost too patriotic, one wonders if the next step will be to adopt the style of bathing suits which one used to see on photographs of Ostend just as a tribute to Belgium. Those suits, about the size of a bandana handkerchief, of zebra stripes around the equator. Anyway, these deleted bathing suits are good for the defense of the coast, besides they always insure the presence of plenty of lookouts.

KNOWS HIS MOUNTAINS

ROME, Italy.—General Cadorna, chief of the general staff of the Italian army, has known the mountains in which the Italians are now fighting the Austrians since he was a little boy. In an elementary school book on the war, the story is related that a lad of six he became lost while roaming in the mountains. At the end of a whole day he was found and led home, to his distressed mother. "Don't cry, mamma, please," he said. "I'm not afraid of the mountains."

LONDON, England.—There are 40,000 dependents of Canadian soldiers in this country unable to return to Canada owing to the lack of passenger accommodation on the few steamers running to Canada. They came soon after their men folk when the latter enlisted and, in some cases, the men already have returned to Canada wounded or discharged from the army. Others were relatives of soldiers who have been killed there, are anxious to return to relatives.

MAYOR CALLS MEETING OF NEW PENSION BOARD

Thursday morning at 11 o'clock the members of the police and fire pension board will hold its first meeting at the mayor's office. The meeting was called by Mayor J. J. Forni, who is the chairman, and the other two members are James Bicknell, auditor, and D. L. Conkling, treasurer. The board inaugurated by the last legislature and its purpose is to care for and invest the pension fund which is derived from the general fund of the city and county. The amount each year is fixed at one per cent of the total general fund of the preceding year. The amount this year is approximately \$7500.
